

Concept: A portfolio website that provides professional information about an artist and presents a showcase of their work. In this project, we have created a portfolio emphasizing the artist's works and thought process. The website also includes external links referring to online marketplace pages where the artist's products are being sold.

Objective: To provide a website for up and coming local artists as a platform to promote their art works.

WAVES OF SUNSET

one of my favorite moments during a beach vacation, sunsets.

a mix of the colors being reflected every time the sun goes down to the ocean.

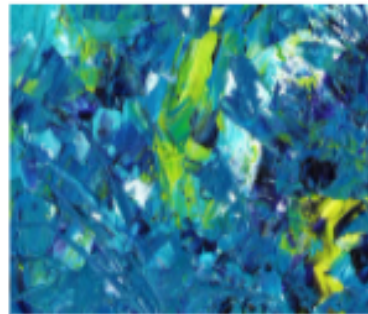

the sun, the sky, the water and the waves crashing together to make this piece.

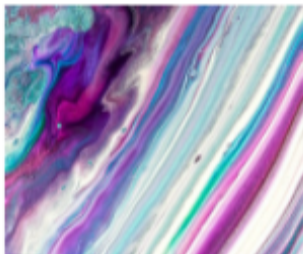

MIRROR ON THE WALL.

there are times we find ourselves looking at the mirror,
wondering what's the purpose of our lives.

and sometimes, mirrors break, gets thrown outside and reflects
the light of the sun to make a beautiful pattern despite being
broken.

Inspired by broken glass reflections, light bouncing, colors made.

MARBLING UNIVERSE.

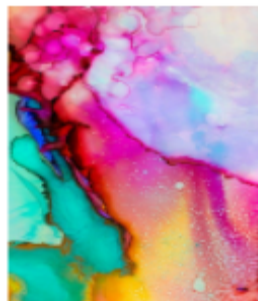

different colors mixing together to make a marble like pattern.

like people, different cultures, different ways, but sometimes get unified as one because of a certain purpose or reason.

SPECKLED WORLD.

CMYK colors mixed together to create a galaxy like place.

the world is so big, that this world of ours can be a small speckle inside a galaxy.
that no matter how big the world may seem, there's something bigger.

OCEAN BLUES.

cool blue colors mixed together completing the underwater concept.

Inspired by the coral reefs, which gives shelter to other water life forms and provides food and protection.

In honor of world reef awareness day, every June 1st.

1 IN 7 BILLION.

we sometimes feel like we're not unique in this world of ours.

but in reality, we are 1 of 1.

Inspired by different kinds of people, in one frame.

CAESAR LEGASPI

As a child, I used to love going to museums and art galleries to explore different kinds of art. It amazes me how different styles can still be considered as an art form. Even a simple smudge of paint can mean a thousand words.

Perception is the key to seeing the beauty in art. Being in the moment, understanding the artist's meaning and expressions. It can tell you a story and it can simply be beautiful in its own way.

I finished college in the University of the Philippines with a Bachelor's Degree in Fine Arts Major in Painting.

Now, aspiring to be a well known artist from the province of Nueva Ecija.

Thank you for visting the artworks!
